

April 25, 2006

I have known David Choi for 5 years and in that time I have been constantly reminded and impressed with his professionalism, intelligence, common sense and stellar work ethic. He is an incredible 3d modeler and animator. As an artist/game dev, he is constantly trying to improve his skills, which paves the way for others to follow. He embraces learning new things and will take on any challenge. His organizational and teaching skills are unparalleled. David enjoys what he does, has a wonderful sense of humor, and is a very passionate and innovative person.
